DETAILED ACTION

Claim Rejections - 35 USC §§ 102 and 103

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1, 4, 7-12, 15 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent Number 4,809,975 (Lee).

Regarding claims 1, 4, 10-12, 15 and 16, Figure 1 of Lee shows the recited shaft 12, weight 26 and grip 14.

Regarding claims 7 and 8, end cap 44 corresponds to a clubhead or stopper.

Regarding claim 9, shaft 12 inherently has a weight.

4. Claim 5 rejected under 35 U.S.C. 103(a) as being unpatentable over Lee as applied above in view of U.S. Patent Number 4,982,963 (Fazio *et al.*, hereinafter Fazio).

It would have been obvious to one of ordinary skill in the art to provide a molded grip to the Lee club in view of Fazio who shows in his Figure 3 that moldable golf club grips are well-known in the golfing art in training users with the proper grip. Also, see Fazio at column 3, lines 22-34.

5. Claims 1-3, 6, 12-14, 17 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent Number 6,231,453 (Jebe).

Regarding claims 1-3, 6, 12-14, 17 and 18, Figures 3 and 4 of Jebe show the recited weight 24 and release mechanism (spring 38). Also, see Jebe at column 3, lines 41-51.
